GIVING OPPORTUNITIES

**DONATE TO IAWA
FOR A GLOBAL IMPACT**

GLOBAL VALUE

Global outreach

to women leading the aviation and aerospace industries. Connect at the annual conference, regional virtual events, and on IAWA's website, social media and newsletter. When you support IAWA you provide a platform for business opportunities and personal development globally and support for your Diversity and Inclusion initiatives.

Visibility and exposure

through IAWA's strong network of affiliations and partnerships. Access to key tools, information and resources including the groundbreaking study, "Soaring Through the Glass Ceiling."

Impact

the future for the next generation of women leaders through the IAWA scholarship, internship and mentoring programs, employee resources and recruitment support through our Job Board and Networking.

The past year has significantly impacted our industry around the globe.

It's a critical time to support opportunities for women in aviation. Founded in 1988, IAWA cultivates and advances women leaders in the aviation and aerospace industries through a global network in areas such as:

- Airport Management
- Commercial and Business Aviation
- Rotorcraft and Military
- Economic/Business Consulting
- Aviation Law

SCHOLARSHIPS

Developing the next generation of leaders has been a key component of IAWA's mission since our beginning. Through scholarships, mentoring and internship programs, we seek to increase the number, visibility and advancement of women in aviation and aerospace throughout the world. As the industry and technology continue to evolve, our programs help tomorrow's leaders meet the challenges ahead.

YOUR SUPPORT FUELS OPPORTUNITIES FOR WOMEN AROUND THE WORLD

Your support of IAWA through one of our giving levels ensures our mission of promoting and advancing women in aviation and aerospace. From college students to professionals through senior leadership, sponsorship contributions fund networking platforms, virtual galleries and training programs, annual and regional conferences and our scholarship and mentoring programs.

CORPORATE PARTNERS

have increased visibility and benefits at all international IAWA events throughout the year and inclusion on our various social media and web platforms. To learn more about the wide range of giving levels and how your organization can support the International Aviation Womens Association, visit iawa.org

IAWA'S POWER REALIZED

CHLOE EIMUNJEZE

2017 SCHOLARSHIP RECIPIENT

Bachelor of Science, Mechatronics, Robotics and Automation, Vaughn College, USA

Chloe works at Goldman Sachs as an Engineering Analyst. She is currently focused on growing in her field and gaining experience, while also considering pursuing a Master's degree. The IAWA scholarship was very meaningful to Chloe, as it meant that she could continue to pursue her degree. The scholarship made a big difference for her family in Nigeria.

She gained valuable experience attending the IAWA conference as part of the scholarship award. She described the conference as "really empowering" and said it gave her a "boost of confidence."

Chloe reflected that networking and sponsorship through IAWA is important because "the feeling of having an organization behind you pushes you to give back. Once you receive generosity, you want to express generosity."

ANA CRISTINA GALHEGO ROSA

2009 SCHOLARSHIP RECIPIENT

Masters in Law, International Air & Space, Leiden University, Netherlands

Ana Cristina is the founder and CEO of DipteronUG, a company that develops applications for detecting mosquito diseases around the globe using space technology and artificial intelligence. Before this role, she served as legal adviser for the Brazilian delegation serving the United Nations Committee on Peaceful Uses of Outer Space and as an assistant professor at the International Space University.

Ana Cristina said that her IAWA scholarship was helpful not only from a financial perspective, but also in the opportunities it provided to network with other accomplished women. IAWA is the first organization that allowed her to interact with leading female professionals. This helped her build her network and provided inspiration.

EDITH QUIZHPI

2017 SCHOLARSHIP RECIPIENT

Bachelor of Science, Airport & Airline Management, Vaughn College, USA

Edith currently works at American Airlines. She began as a material logistics specialist and quickly progressed to supervisor. She oversees the Northeast U.S. supply chain for the airline, working closely with Maintenance & Engineering to ensure they have the right parts. She is currently focused on learning as much as she can to grow and develop professionally.

The IAWA scholarship was pivotal to Edith as it opened her eyes to the realization she could be successful in a male-dominated industry. After attending an IAWA conference in Berlin and witnessing powerful female CEOs, Presidents and Chairwomen, she was very inspired. IAWA gave her the once-in-a-lifetime experience of attending a week of nonstop networking and learning. She found it very empowering, and hopes that IAWA continues providing scholarships, noting that "for someone like me, it opened my eyes to a whole new world."
